

Dear Philippino and English speaking friends,

So quickly has gone also this year! For me is the 35th year that I am spending in Bangladesh and I am not tired at all.

I know that also many of you are ready to pay a lot of money to be able to come back to work in this country. It is the magic of Bangladesh!

I have been in Italy just for 15 days for two reasons;

I accompanied a Bangladeshi student in Italy who will study Economics at the University. He has been sponsored by two sisters who are now retired from a life of teaching in the school and they are willing to make study a girl or a boy from a poor country.

I introduced the application to get from the Government my pension of old age. I should start to get it in the month of April 2011. Come at that time and i will offer a great lunch to all of you.

I have a story which may be interesting for you because it is related to the work you have done here.

Nearly two months ago, Mrs. Kaleda Zia, who is the leader of BNP party that now is at the opposition, organized a trip in the north part of the country.

The Sirajganj leaders of BNP, to greet her, prepared a gathering in locality Sahidabad, west of the Jamuna Bridge, in the exact position where the Railway is joining the road. There is also a rail crossing level for the by pass road going to Sirajganj.

There was a stage and thousands people waiting for the leader to come. Of course also the rail tracks were completely occupied by the gathering of the people.

In the mean time an express train from Dinajpur and going to Dhaka was coming. You should remember that, after the Koddar Crossing road, the rail tracks are turning and then going to join the road in parallele.

They also had to emigrate

The driver of the train, due to the turning of the railway, could see the gathering of the people on the tracks very lately, he put in action the brakes but he could stop the train only after having hit people for ten yard space. 7 people died. After this happening, the leaders of BNP made all the passangers come down from the train and put it on fire. In the mean time Kaleda came and not taking any care of the burning train, she delivered her speach to the thousands. From this you can judge by yourselves the situation and the criminality of the politics in Bangladesh.

With the help of some political parties the intenational terrorism is penetrating in this country. Hope the common and good sense will help in sparing this poor country from lot of violence.

All my work is proceeding very well. My Children; Sumon is Architect since two years and progessing in his work. Maria, very happy with her family and teaching in the school. Sister Marta is doing well wherever she is posted. Many people from abroad are coming to visit me.

Mr. Kim and one of my teachers

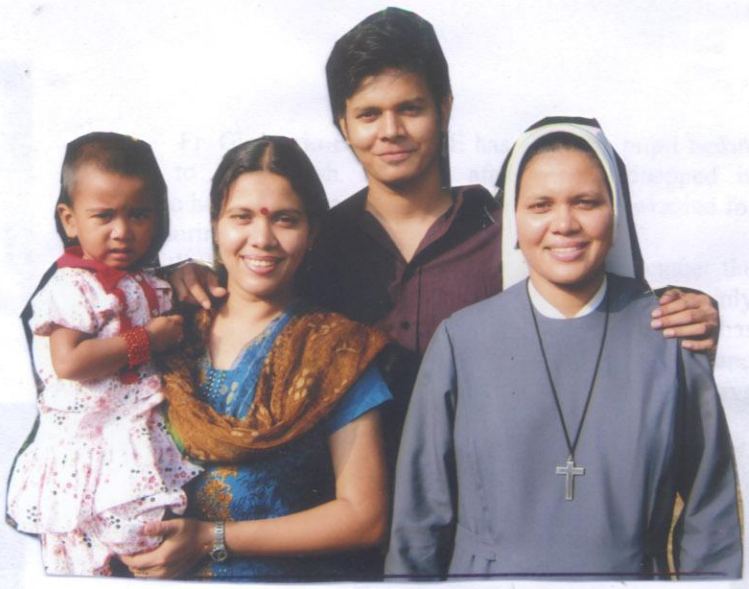

The most important visit has been the one of Mr. S.S. Kim from Korea. He came to see me and specially the children of the school donated by Samwhan Company more than 10 years ago.

The news are that Mr. Kim has terminated the contract in Korea and now he will go with a company for road contruction in Kazakhistan. If any body is willing to contact him, this is his mail address and phone number.

Toniet,Maria,Sumon,Sr.Martha

These are the only news I could collect from the our many friends.

Also this year I would like to whish you an Holy Christmas.

As much as you are in sorrow and difficulties and in loniless, remember that Jesus is as much close to you.

He did not took birth in a stable and he did not lay in a manager so that people, remembering this day, could get drunk making lavish and do a lot of sins. The best way to spend Christmas is to meditate, to go to console the distressed people and to donate our joy and peace to all.

May this letter help you to remember the best we had when we were together.

May the Lord give us many more days so that we can greet and pray for each other for long time more.
